Survey Data

The sample for the survey is drawn from the LINK Internet Panel. The results of the survey are thus representative of people between the ages of 15 and 79 who live in Switzerland, who are on the internet at least once a week for private purposes and who can complete the questionnaire in German, French or Italian.

In the following, all provided variables from the survey are explained in detail. In the data set, the values of one expression of a variable are listed in each column. The following three values are provided for each calendar week:

<i>prop</i>	The proportion of respondents who belong to this characteristic.
<i>prop_low</i>	The lower limit of the 95% confidence interval.
<i>prop_upp</i>	The upper limit of the 95% confidence interval.

F110: Tracing App – Behaviour

Question	Nutzen Sie aktuell die Tracing-App?	Utilisez-vous actuellement l'application de traçage ?	Utilizza l'app di tracciamento?
Scale	1 Ja 2 Nein	1 Oui 2 Non	1 Sì 2 No

Recoding: 1 = Zustimmung (Agreement), 2 = Ablehnung (Disagreement)

F120: Tracing App – Attitude

Question	Wie wichtig finden Sie es, die Tracing-App zu nutzen?	A quel point est-il important, selon vous, d'utiliser cette application de traçage ?	Quanto è importante per Lei utilizzare l'app di tracciamento?

F300: Vaccination

Question	Wie wahrscheinlich ist es, dass Sie sich gegen das Coronavirus impfen lassen werden?	Selon quelle probabilité vous ferez-vous vacciner contre le coronavirus?	Con quale probabilità si farà vaccinare contro il coronavirus?
Scale	1 sehr unwahrscheinlich	1 Très improbable	1 molto improbabile
	2	2	2
	3	3	3
	4	4	4
	5 sehr wahrscheinlich	5 Très probable	5 molto probabile

Note: This question was only displayed to respondents who indicated that they had not yet been vaccinated. In variable F300, those who have already been vaccinated were assigned to the group "Agreement", while in variable F300_1 they are listed separately.

Recoding F300: 1-2 = Ablehnung (Disagreement), 3 = Neutral, 4-5/NA = Zustimmung (Agreement)

Recoding F300_1: 1-2 = Ablehnung (Disagreement), 3 = Neutral, 4-5 = Zustimmung (Agreement), NA = Geimpft (Vaccinated)

F450: Willingness to support further prevention measures

<i>F450_1: Quarantine</i>	Wenn ich heute erfahren würde, dass ich Kontakt mit einer positiv auf Covid-19 getesteten Person hatte, würde ich mich so schnell wie möglich in Quarantäne begeben.	Si j'apprenais aujourd'hui que j'étais en contact avec une personne testée positive au Covid-19, je me mettrais le plus rapidement possible en quarantaine.	Se oggi dovessi venire a sapere che ho avuto un contatto con una persona testata positiva al Covid-19 mi metterei al più presto in quarantena.
<i>F450_2: Testing</i>	Wenn ich heute Symptome einer möglichen Covid-19-Erkrankung feststellen würde, würde ich mich so schnell wie möglich testen lassen.	Si je constatais aujourd'hui des symptômes d'une éventuelle infection au Covid-19, je me ferais tester le plus rapidement possible.	Se oggi dovessi notare sintomi di un'eventuale malattia da Covid-19, mi farei fare il test al più presto.
<i>F450_3: Contact Tracing</i>	Wenn ich heute die Diagnose einer Ansteckung mit dem Coronavirus erhalten würde, würde ich sicherstellen bzw. unterstützen, dass alle Personen informiert werden, die ich angesteckt haben könnte.	Si je recevais aujourd'hui le diagnostic d'une infection par le coronavirus, je m'assurerais ou je soutiendrais le fait que toutes les personnes que je pourrais avoir contaminées soient informées.	Se oggi dovessi ricevere la diagnosi di un contagio da coronavirus mi assicurerei o farei il possibile di informare tutte le persone che avrei potuto contagiare.
<i>Scale</i>	1 stimme überhaupt nicht zu 2 3 4 5 stimme voll und ganz zu	1 Pas du tout d'accord 2 3 4 5 Tout à fait d'accord	1 non sono affatto d'accordo 2 3 4 5 sono completamente d'accordo

Note: This question was only included in the survey from week 45 onwards.

Recoding: 1-2 = Ablehnung (Disagreement), 3 = Neutral, 4-5 = Zustimmung (Agreement), No Response = NA
